

Leoforce

# Leoforce Capture

The recruiter-candidate  
matchmaker you always wanted.

## Shorten Hiring Timelines. Build Better Pipelines

Hiring shouldn't mean sorting through hundreds of resumes just to find a handful of viable candidates. Leoforce Capture replaces expensive, and often unpredictable, job ads generating unqualified applicant flow with an outcome-based approach that delivers what actually matters: pre-vetted, interview-ready applicants who fit your role and want the job.

By combining AI-powered sourcing with human recruiter screening, [Capture](#) removes the noise and accelerates hiring without adding headcount, tools, or complexity.

## Why Leoforce Capture

### Recruiting Efficiency

Capture sources talent across 30+ channels and our proprietary Leoforce talent database to deliver a curated pipeline of top-fit, interview-ready candidates. The result? Your team spends more time building talent pipelines – not screening resumes.

### Better Candidates

Our AI agents are optimized with 12+ years of data modeling from 16,000+ recruiters. They find the right talent quickly and then our in-house recruiters personally vet every applicant for skills, qualifications, and interest to ensure quality never gets lost in automation.

### Technology You Can Trust

Moving faster doesn't mean cutting corners. Our fair, bias-resistant capabilities are enabled by ironclad security standards to consistently deliver interview-ready talent – defensibly.

## Customer Outcomes

**20**  
hours saved in  
resume review  
per job

**98%**  
less time spent  
sourcing and  
screening

**70%**  
boost  
in candidate  
quality.

## About Leoforce

Leoforce is the outcome-based, AI-powered recruiting intelligence platform built for staffing firms, employers, and government agencies. We help hiring teams cut through complexity to find and connect with the right candidates faster—without adding to their tech stack or workload. Backed by more than a decade of AI learning and human insight, Leoforce transforms recruiting into what it should be: smarter, simpler, and more human. Outcome-Based. AI Powered. The Future of Recruiting is Now.
