# Leoforce Convert

The always-on teammate
you actually want.

## Accelerate Your Traffic to Applicant Funnel with AI

Leoforce Convert is an AI chat agent built specifically for career sites — but it's far more than just chat. Convert actively engages visitors in real-time, answers questions, guides candidates to best-fit roles, removes friction from the application process, and automates interview scheduling.

The result? More applications, stronger engagement, and a better candidate experience without adding recruiter workload.

## Customer Outcomes

**88%**
Increase in Career Page Interactions

**77%**
Growth in Candidate Pool

**39%**
Boost in Job Applications

## Why Leoforce Convert

### Website Performance

Convert is your always on, always responsive colleague. It greets every webpage visitor and helps them find relevant jobs or website content to bolster conversion 24/7. Your new teammate never sleeps – and it doesn't annoy you.

### Candidate Experience

Each website interaction is based on a candidate's background and career interests — prescreening and recommending relevant roles while answering job-specific questions instantly. That means every candidate gets a personalized, on-brand experience that keeps them interested and applying.

### Workflow Efficiency

Seamless ATS integration ensures every candidate profile is captured before qualified applicants are routed to recruiters for next steps. You'll increase conversions while giving your team more time to focus on hiring – not answering repetitive questions.

## About Leoforce

Leoforce is the outcome-based, AI-powered recruiting intelligence platform built for staffing firms, employers, and government agencies. We help hiring teams cut through complexity to find and connect with the right candidates faster—without adding to their tech stack or workload. Backed by more than a decade of AI learning and human insight, Leoforce transforms recruiting into what it should be: smarter, simpler, and more human. Outcome-Based. AI Powered. The Future of Recruiting is Now.
