

## Leoforce Rediscovery

The navigator to hidden talent  
you need.

## Turn Past Candidates into Your Smartest Hires.

You already have the talent you need. They're just hidden in your ATS. Leoforce Rediscovery is your talent navigator. It guides recruiters to high-fit, interview-ready candidates they already know. By scanning your existing database and applying predictive intelligence, Rediscovery surfaces the candidates most likely to engage today and automates personalized outreach to bring them back into the hiring process.

The result? Faster hiring, lower sourcing costs, and a better candidate experience – all without starting from scratch.

## Customer Outcomes

**20**  
hours in sourcing  
and screening  
saved per job

**50%**  
decrease in  
cost per apply

**40%**  
higher applicant  
conversion

## Why Leoforce Rediscovery

### Recruiter Efficiency

Rediscovery scans your ATS to surface candidates who have already been vetted, matched, and are most likely to engage today. By combining AI-powered predictive analytics with outcome-driven automation, recruiters can rediscover and re-engage high-fit talent faster than sourcing from scratch.

### Candidate Experience

Beyond identifying top talent within your internal database, Rediscovery warmly reopens the conversation with them. Personalized, automated outreach across SMS, email, and voice helps reconnect in a human way while making it easier for candidates to re-enter the hiring process.

### Cost Savings

Stop paying to re-source talent you already have. [Rediscovery](#) maximizes the value of your existing ATS by reducing job ad spend while improving hiring outcomes.

## About Leoforce

Leoforce is the outcome-based, AI-powered recruiting intelligence platform built for staffing firms, employers, and government agencies. We help hiring teams cut through complexity to find and connect with the right candidates faster—without adding to their tech stack or workload. Backed by more than a decade of AI learning and human insight, Leoforce transforms recruiting into what it should be: smarter, simpler, and more human. Outcome-Based. AI Powered. The Future of Recruiting is Now.
